

MARIA CHRISTINA MICHAEL

Sound Department

My everyday life is seen and lived through Photography, Music, the Audio-visual realm and the Stage.

Combining my skills in Sound Design and Audiovisual Practice, in which I earned my Master's of Science degree at the University of Glasgow, and my linguistics and writing skills which I excelled at in my undergraduate MA English degree, I wish to build a world of digital and creative innovation.

About Me

- DOB 18.06.2001
